

## *Van Joslin Real Estate: Finding Safe Haven in The Woodlands for Affluent Families Fleeing Terror*

The last six months have been a nightmare for the more affluent families in Mexico as they are experiencing armed robberies and kidnappings. Most recently a kidnapping ended in the murder of a child, even after the ransom was paid. This is almost unimaginable for most of us. Families are now migrating here to this safe haven, The Woodlands.

Many of these families are looking to rent while they get to know the area and are able to move their businesses and assets. This has created an unprecedented demand for **3000 - 7000 square foot homes** in **Sterling Ridge**. If you have considered leasing your home furnished, partially furnished or unfurnished for **6 months to 2 years**, Van Joslin Real Estate would like to talk to you since this is an excellent market for leasing out your home while helping our neighbors south of the border.
